Data security

Elemental Media has implemented technologies and policies with the objective of protecting your privacy from unauthorised access and improper use and will update these measures as appropriate and as new technologies become available.

Email Mailing List & Marketing Messages

We operate an email mailing list program, used to inform subscribers about products, services and/or news we supply/publish. Users can subscribe through an online automated process where they have given their explicit permission. Email marketing messages may contain tracking beacons/tracked clickable links or similar server technologies in order to track subscriber activity within email marketing messages. Where used, such marketing messages may record a range of subscriber data relating to engagement, geographic, demographics and already stored subscriber data

How we use cookies

A cookie is a simple text file that is stored on your computer or mobile device by a website's server and only that server will be able to retrieve or read the contents of that cookie. Each cookie is unique to your web browser. When you agree to accept cookies, the file is added and the cookie helps analyse web traffic or lets you know when you visit a particular site.

Cookies allow web applications to respond to you as an individual. The web application can tailor its operations to your needs, likes and dislikes by gathering and remembering information about your preferences.

Elemental Media uses traffic log cookies to identify which pages are being used. This helps us to analyse data about traffic to each Website page, whilst also allowing us to improve the Website and develop it in line with your requirements. We only use this information for statistical analysis purposes before removing the data from the system.

It is important to note that cookies do not give Elemental Media any access to your computer or any information about You other than the data you choose to share with us.

You can choose to accept or decline cookies. Most web browsers automatically accept cookies, but you can set your browser setting to decline cookies if you would prefer or use our cookie form when you first land on our website to choose between the cookies you want or don't want.

Advertising, Marketing and your Communication Preferences

There are lots of different ways you'll see adverts for Elemental Media, and these may not be using your personal data – sometimes we buy advertising space in the real world and on websites and in social media. If you see Elemental Media's adverts on websites and in social media, these may not be directed specifically at you, we may just have bid for the space. We may also be using a search engine or social media platform's 'lookalike' products, which are not directed at you and which you can control using each search engine or social media platform's privacy settings.

We may use your Identity, Contact, Technical, Tracking, Usage and Profile Data to form a picture of what we think you may want or need, or what may be of interest to you. This is how we decide which products, services and offers may be relevant for you and tell you about them. We may carry out direct marketing by email, phone, text and post.

On our website, we make your direct marketing preferences clear. You may choose to opt in to receive our newsletter, or as part of creating an account. We may also be able to send our customers relevant direct marketing about our own products and services unless they opted out during the purchase journey. We may also send you a little nudge as part of the purchase if you have left products in the basket without checking out.

At all times you have a right to opt out or direct marketing. The easiest way to opt out is to use the unsubscribe link at the bottom of the communication or just email us at support@elemental.media.

We will never share your personal data with any company outside of the Elemental Media or Elemental Education Group for direct marketing purposes.

We also work with partners to try and promote the reach of our adverts and use analytics and retargeting for this reason. We use Tracking Data to deliver relevant online advertising, including on websites and in social media.

Tracking Data, and in particular cookies, help us to deliver website and social advertising that we believe is most relevant to you and to potential new Elemental Media customers. The cookies used for this purpose are often placed on our website by specialist organisations – and this is also why when you’ve been on the Elemental Media website, you might see content from our website again. This is called retargeting. Cookies can also tell us if you have seen a specific advert, and how long it has been since you have seen it. This is helpful, because it means we can control the effectiveness of our adverts and control the number of times people might be shown our adverts. Cookies also help us understand if you’ve opened a marketing email because we don’t want to send you things you don’t read.

If you want more information about Tracking Data, in particular cookies, see **Cookies** below or view our separate cookies Policy, which can be sent to you or viewed from the website.

Almost all the cookies that relate to advertising are part of third party online advertising networks. If you’d like to read about how you can control which adverts you see online, see opt-out programs established by the [European Interactive Digital Advertising Alliance](#) and the [Digital Advertising Alliance](#) (United States). We do not control cookies which are set by advertising networks.

Where we store your personal data?

By submitting your personal data, you agree to our storing and using it. We will take all steps reasonably necessary to ensure that your personal data is treated securely and in accordance with this privacy policy. We only keep your personal data for as long as We need to in order to use it as described above in section 6, and/or for as long as We have your permission to keep it.

Social Media Policy & Usage

There may be instances where our website features social sharing buttons, which help share web content directly from web pages to the respective social media platforms. You use social sharing buttons at your own discretion and accept that doing so may publish content to your social media profile feed or page. You can find further information about some social media privacy and usage policies in the resources section below.

Your Legal Rights

Under certain circumstances, you have rights under data protection laws in relation to your personal data:

Request access to your personal data

This enables you to receive a copy of the personal data we hold about you and to check that we are lawfully processing it.

Request correction of your personal data

This enables you to have any incomplete or inaccurate data we hold about you corrected, though we may need to verify the accuracy of the new data you provide to us.

Request erasure of your personal data

This enables you to ask us to delete or remove personal data where there is no good reason for us continuing to process it. You also have the right to ask us to delete or remove your personal data where you have successfully exercised your right to object to processing (see below), where we may have processed your information unlawfully or where we are required to erase your personal data to comply with local law. Note, however, that we may not always be able to comply with your request of erasure for specific legal reasons which will be notified to you, if applicable, at the time of your request.

Object to processing of your personal data

This enables you to object to processing of your personal data where we are relying on a legitimate interest (or those of a third party) and there is something about your particular situation which makes you want to object to processing on this ground as you feel it impacts on your fundamental rights and freedoms. You also have the right to object where we are processing your personal data for direct marketing purposes. In some cases, we may demonstrate that we have compelling legitimate grounds to process your information which override your rights and freedoms.

Request restriction of processing your personal data

This enables you to ask us to suspend the processing of your personal data in the following scenarios: (a) if you want us to establish the data's accuracy; (b) where our use of the data is unlawful but you do not want us to erase it; (c)

Request transfer of your personal data

We will provide to you, or a third party you have chosen, your personal data in a structured, commonly used, machine-readable format. Note that this right only applies to automated information which you initially provided consent for us to use or where we used the information to perform a contract with you.

Right to withdraw consent

Withdraw consent at any time where we are relying on consent to process your personal data. However, this will not affect the lawfulness of any processing carried out before you withdraw your consent. If you withdraw your consent, we may not be able to provide certain products or services to you. We will advise you if this is the case at the time you withdraw your consent.

If you wish to exercise any of the rights set out above, please see How to contact Elemental Media about privacy above.

You will not have to pay a fee to access your personal data (or to exercise any of the other rights). However, we may charge a reasonable fee if your request is clearly unfounded, repetitive or excessive. Alternatively, we may refuse to comply with your request in these circumstances.

We may need to request specific information from you to help us confirm your identity and ensure your right to access your personal data (or to exercise any of your other rights). This is a security measure to ensure that personal data is

not disclosed to any person who has no right to receive it. We may also contact you to ask you for further information in relation to your request to speed up our response.

We try to respond to all legitimate requests within one month. Occasionally it may take us longer than a month if your request is particularly complex or you have made a number of requests. In this case, we will notify you and keep you updated.

Finally a small request from Elemental Media

It is important that the personal data we hold about you is accurate and current. Please keep us informed if your personal data changes during your relationship with us.
